Registered Nursing program: The Associate of Science Nursing (ADN) program prepares graduates as a professional nurse to provide holistic patient care in a variety of clinical settings and to interact professionally with patients, families, and co-workers within the community. Nurses are educated to function as members of the health-care team and provide optimal cost-effective patient care. The ADN program is approved by the Idaho Board of Nursing and accredited by the Accreditation Commission for Education in Nursing, Inc. (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326; Phone: 1-404-975-5000. Completion of the program qualifies the graduate to write the NCLEX-RN. Applying to this program is a separate application process from applying to the College or declaring a major.
